Name of senior contact _____ Job title _____

e-mail address _____

Company web site _____

I confirm that the information is correct as shown above.

Signed: _____

Date: _____

Name (please print): _____

* IMPORTANT: To calculate your IC Index, please add together the **maximum load moment** ratings in **tonne-metres** of all the crawler cranes and wheeled mobile cranes in your fleet.

Editor's notes on the *IC50*

1. All *IC Index* figures must be given as a **maximum load moment** rating in **tonne-metres**.
2. Tower cranes are no longer included in the main *IC Index*. Please ensure that there are no figures for this equipment in your calculations. If you have tower cranes, please complete the separate *IC Towers Index*.
3. Alternative lifting equipment is no longer included in the main *IC Index*. Please ensure that there are no figures for this equipment in your calculations.
4. Figures should include an allowance for any superlift attachments that you own.
5. The *IC Index* should include all cranes that are in your fleet as of 1 May this year. Do not include cranes that you have ordered but that have not yet been delivered.
6. To help illustrate the *IC50* editorial in the magazine you could include some photographs, perhaps showing your cranes in action that will be considered for publication.
